

# Expecting to vote absentee?

# Interested in voting online?

The Federal Voting Assistance Program and ten states are sponsoring an Internet registration and voting project for the 2004 elections. The Secure Electronic Registration and Voting Experiment (SERVE) will provide a secure and reliable means for Uniformed Services members and overseas citizens to register and vote in their home jurisdiction from any Windows-based computer anywhere in the world.

Your voting jurisdiction may be participating.

For more information, visit the SERVE web site at:

<http://www.serveusa.gov>
